

City of Belle Plaine | Building Inspections

218 Meridian Street North | Belle Plaine, MN | 952-873-5553

MID-ROOF INSPECTION

For single family residential structures

NOTE: Two inspections: Half-way and Final.

The City of Belle Plaine requires a mid-roof inspection. The ideal time to have this inspection is when the shingles have been removed and the required ice and water has been installed. The city recognizes that the timing of this inspection can be difficult to predict, therefore in an effort to eliminate any delays in your project pictures will be allowed. To aid the inspector in determining code compliance, refer to the attached picture list.

If you are a homeowner or a contractor wishing to do a project that is not during normal business hours, the City of Belle Plaine with prior approval of the Building Official will allow pictures as well.

If you have any questions contact the Building Official at 952-873-5655. Email photos to **inspections@belleplianemn.gov**.

1. Pictures of the front of the home with the address number visible.
2. Pictures of the decking include all planes or the roof (show deck board spacing where applicable).
3. Pictures of chimneys, or other unusual features and their flashings.
4. Pictures of any repairs made to decking or other appurtenances.
5. Pictures of the required ice and water protection.
6. Pictures of the Underlayment.
7. Pictures of step flashing.
8. Pictures of the required ventilation.
9. Pictures of the completed roof.
